

KEBEDE TESHITE GUYE

Current Working as a Software Engineer

20 March 2024

Dear Sir/Madam,

I am writing to apply for a job Position at 4 Information Technology Officer on the external vacancy Ethiopian Artificial Intelligence Institute Advertise board (website). As requested, I enclose a completed certificate, my resume, references, and recommendation letters. I am very interested in this role, and believe I have the strongest skills from my previous experiences at higher federal educational institutions (Jijiga University), where I was assigned as a software engineering instructor, as well as my current position working at Oromia Science, and Technology Authority as a senior software developer and network expert.

I received both my Bachelor of Science and Master of Science degrees in Computer Engineering from Bahir Dar University and Jimma University respectively. While studying for my MSc in Computer Engineering, I studied data science, AI, and computer vision; machine learning was my major concentration area. I am experienced in current software development and machine learning programming with Python, and Anaconda, which are powerful data science tools

I also have detailed knowledge of the advancement of human-to-computer interaction Link:- (<https://www.hindawi.com/journals/ahci/2023/9959015/>), which was my MSc part during my thesis research work at Jimma University.

Having several short trainings, certified in English proficiency, Software Programming, Database Management, Office machines, Software Development, Software Analysis, Computer Hardware, and Software Maintenance. In my last seven years and nine months of experience, I have worked in several organizations, giving me a comprehensive practical understanding of networking and software development that will help me succeed in this role. Please see my attached resume for additional information

Sincerely,

Kebede Teshite (MSc Computer Engineering)
